Day 3 Session 2

Agenda- The need and possibilities in demilitarized zone in Middle East.

"What is this demilitarized zone? Whatever it is, I like it! Gets you on your toes better than a strong cup of cappuccino."

The second session of the discussion in the committee escalated towards more brainstorming issues like Arms Trade, Non-Proliferation Treaty, Military Intervention and clean use of nuclear energy. There was a heated debate on the topic Illegal tracking of weapons with respect to GPS trackers in the weapon and one of the delegates also raised a point "Why is Pepper Spray legal in India?"

The resolution gave a clear message that the discussion has definitely changed a few individual minds and initiatives should be taken for the progress of the region.

Secretary-General

We come from the country of India

A land that goes back to antiquity,

The Indian peninsula is shaped like a boot,

And hindi is of many languages a root.

Great poets, like Rabindranath Tagore,

Galib, have come and gone,

Although I certainly don't claim to be one,

Famous artists and inventors form our heritage,

Our presence has been noticed on the world stage.

But Indians do not live in the past,

No, we're a people born to last,

A leader in industrial and product design,

Agriculture and tourism doing fine.

So we come to this Model UN conference

When the world situation is quite tense,

Not to declare "how shall we cope?"

But emphasising the importance of hope.

In the committee on Human Rights Against discrimination we intend to fight Child soldiers,

Kosovo and the death penalty,

Cuba, terrorism and Zimbabwe

Yes, on political one and two We have resolutions worth looking through,

So we wish you well fellow delegates

And look forward to meet you again in the debates

Session 2

The second session of the discussion in the committee escalated towards more brainstorming issues of topics on demilitarization. There was a heated debate on the motion and one of the delegates of UNESCO raised a point of why to rely on the USA if the country has the history of restoring to peace. Also there was a question put up that if the US wants peace then why did it invade Iraq. It was even claimed that European countries are cowards as they were questioning people who are brave enough to step in.
