Principal's Message

“The mind of a child is like a blank page. As a mentor we need to embark on it with the pen of hard work, the ink of knowledge, and create a sketch which is everlasting in the child’s Life”.

Delhi Public School Rau is a leading educational institution in central India with the archetypal mission to nurture young prodigies, who are equipped to achieve success in a rapidly changing, deeply interconnected world. In these five years, DPSR has permeated an ‘iron-clad will’ to embellish, the passion to outrival, fueled with higher aspiration and impetus. Each DPSite marches ahead setting significant benchmarks. We whittle out an incandescent path each passing year and redefine success with renewed faith and vigor and the perseverance to accomplish molding the future of children. Be it academics, extracurricular, or co-curricular activities, DPSR has proven itself time and again. Being acknowledged as one of the best and elite schools of the proud city Indore, Delhi Public School Rau has been ranked as no. 2 in Indore and no. 3 in Madhya Pradesh by the Education World School Ranking 2023–2024.

Imagination is where new ideas are created and progress becomes possible. Imagination is more important than knowledge because knowledge is about what we already know, whereas imagination is what moves individuals and cultures forward, imagination leads to innovation. Hence, our aim is to empower our children and make them capable in pursuit of worthy goals in the service of society and humanity. Our learners understand the world around them and develop an openness to knowledge of their own and that of others. Our holistic and comprehensive value-based pedagogy compliments our tag line **“Laying the foundation of excellence.”** I trust today as we stand at the crossroads of history: where each one of us has to take a vital call that will determine the world we create for ourselves and for posterity. As an educator, I feel the responsibility lies with us to help the youngsters understand the complexity of the real world and help them face and overcome challenges.

I would like to conclude by saying that DPSR will endeavor to persist in an open-minded place of learning, where we endure to push the boundaries of knowledge, rear critical inquiry, foster democratic partnerships, and build an empowered community.

“I’ve learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel.”
